

We put the 'you' in Ewing

ESEE TO SEE

- High Contrast Red and Blue Handles with Hot & Cold Indicator Buttons.
- High Contrast Red and Blue Flange Dress Rings.

ESEE TO USE

- Powered by Maxus Spindle Technology allows the power of the water to assist with the water tight seal so the handles glide to the open and closed positions.
- Maxus Spindles allow the installer to customise the turn option to suit the user i.e ¼ turn to ¾ turn.
- Fixed Gooseneck Spout on the 3 piece Basin Set guarantees water alignment into the basin, avoiding water damage and bathroom flooding.

ESEE TO MAINTAIN

- Maxus Spindles guarantee years of trouble free operation as they flush contaminants away.
- Maxus spindles do not rely on ceramic discs to seal, they use the power of the water to assist in sealing so they are stronger, have less wear and tear and are more durable than any other spindle.
- Electro-Plated Brass components with an easy-clean handle and flange design assists in the simple warm water wipe over for cleaning.
- Coloured ABS Dress Rings acts as a barrier between the basin surface and the all Brass Flanges.

ESEE FOR YOU

- Suitable for low-vision clients.
- Suitable for ageing clients with cognitive issues.
- Suitable for clients with limited grip strength.
- Suitable for children learning to use tapware.
